

RASE EQUINE HOSPITAL

FERTILITY CONTRACT 2020

Client Name

Address

Postcode

Multi-cycle Frozen AI Package £550.00

Multi-cycle Chilled AI Package £440.00

Contracts are to be paid at first scan. All prices include VAT.

I agree to the following

Both Contracts include

- Ultrasound scanning
- Insemination
- A single post-ovulation uterine treatment if required
- Caslick's if required (temporary or permanent)
- Rectal or vaginal examinations
- Fertility Drugs: Estrumate ("PG"), Receptal, Chorulon, Oxytocin
- Ovuplant
- Treatment of twinning (but not a further cycle if pregnancy has to be aborted)

Not included

- Sedation
- Regumate
- Lab Fees, clitoral swab, strangles blood tests
- Infertility investigations/ treatment for persistent endometritis
- Treatment of any disease or injury of mare and/or foal
- Foal identification/ passport
- Visits (if an owner wants a visit then this must be cleared with vet/accounts. Be aware that mares at the surgery take priority and will be scanned first before visits)
- Livery is not included, and will be charged at £20 per day. Livery is charged neither on the day of admittance, nor on the day of discharge
- Foaling

Whilst we take all reasonable steps to look after your semen, we cannot accept any responsibility for any damage or loss that may occur and therefore we strongly advise you to take out appropriate insurance cover.

When your mare is scanned in foal they will also need a 28/30 day scan to confirm a single viable and healthy pregnancy; the cost of this is covered by the contract but it is the owner's responsibility to arrange for this to be carried out. A further 42 day scan is recommended but this is not included in the contract.
